Subject No. 292.

Granting Doggahalli village as land Inam instead of cash Inam to the Harihareswara temple.

Mr. Srinivasa Sitaram Kulkarni, Taluk Member, Harihar.

Summary of Representation.—It is evident from the inscription stones that are in existence in the compound of the Sri Hariharēswaraswami temple at Harihar that the villages of Belludi, Gangānarasi, Bullapur, Kundawada and Kasaba Harihar were in the enjoyment of the temple as Inam at the time of the rulers of the Anegondi States. These villages being resumed to Government by the Mogal Rulers, the village of Doggahalli was granted as Inam to the temple for an endowment of a sum equal to Rs. 432 by Dewan Purnaiya in Siddharti, 1726th year of the Era of Salivahana. After a long time, this village was also resumed. In the year 1814, His Highness the late Maharaja Sri Krishnaraja Wadayar Bahadur was pleased to grant a ready money allowance equal to Rs. 800 for this and other temples connected therewith and permitted subscriptions being collected from the general public for the car festival, the allowance being subsequently converted into land Inam at the Inam Settlement. There are original sannads to prove the above facts and will be produced for reference. As the title-deed issued by the Inam Commissioner for the endowment of Rs. 600 sanctioned by Government in 1896 for the temple allows the option that the endowment may be had either in cash or in land,it is prayed that the village of Doggahalli may be granted an Inam in place of the cash allowance, or it may be so granted, subject to the condition that any excess revenue of the village over the cash allowance of Rs. 600 be repaid to Government by the temple.

Reply of Government.—A petition on the subject may be presented to the Deputy Commissioner or to Government.

Subject No. 293.

Drinking water at the market place at Harihar.

Mr. Srinivasa Sitaram Kulkarni, Taluk Member, Harihar.

Summary of Representation.—Water is supplied from the river Tungabhadra by means of pipes to the Railway Station at Harihar within a distance of a furlong and a half from the place where "Sante" or weekly market is held for two days in the week. People who collect at the latter place on Shandy days feel difficulty for drinking water, there being no well or any other source of water-supply near at hand. It is therefore requested that a pipe may be laid out to the market place to afford facilities for water there.

Reply of Government.—To Deputy Commissioner for disposal.

SHIMOGA DISTRICT.
